The dawn of a New Year is just breaking and the anticipation of what THIS New Year will bring is in our thoughts. Bobbie and I want to take this opportunity to wish you health and happiness...all the very best that life has to offer...in 2011!

Recently we had to cancel the Chula Vista Rally due to lack of participation and the Vintage Bird’s Rally at the Pechanga RV Park was also canceled. However, there are several members who were planning to attend both rallies and decided...rally or not...we’re going! So you’re invited, whether you are a member of the Blue Bird Chapter of FMCA, Vintage Birds, SWBB, Rats or just a Blue Bird owner looking for a place to hang out for a few days, you are welcome. All you need to do is make your own reservation and join us for some fun and fellowship. The plan is as follows:

February 1st arrive at the Pechanga RV Resort in Temecula, CA and depart on February 4th. To make your reservation please call the Resort at 877-997-8386. Bobbie and I are in site D1.

February 4th arrive at the Chula Vista RV Resort in Chula Vista, CA and depart on the 10th. To make your reservation please call the Resort at 800-770-2878.

We have had some great times after a rally has ended and the “post-rally” begins. Several members stay over and we just play it by ear. Where to go for dinner, is there anything we’ve missed or want to see again, or should we just sit around one of the Birds and share some fun memories and swap stories?

Bobbie and I hope you will join us and several others at these beautiful Southern California Resorts. Again, we wish you a very Happy New Year and look forward to seeing you “On the Road Again”.

Dan

**Down Wanderlodge Way:** by Ralph Fullenwider

She sits so quietly, preened and strong seemingly to say, “hey there is nothing wrong.”

With her heaters at the ready, water at the full straining at her moorings, ice maker ready for the days end pull.

Sides shimmering in the sun light, she looks so buffed the beds made, her systems humming, awaiting that last little tuft.

Pumping the life fluids through the lines, she seems to shudder, her lines so fine, her coat so sleek, standing so proud, looking like no other.

Fuel at the full, air up and cool she patiently awaits the commands of this old fool.

A new pump here and ceiling strips yet to be replaced the Lady sits there with so much grace.

The closets so full and all hung straight lights all a glow, shining off my old pate.

Armed with the list of the troubleshooting Forum tools at the ready, knowing there is a quorum.

Yes she sits there seemingly to say, “come along now! I'll see you safely down Wanderlodge Way!”

**Valentine Photos Needed**

I would appreciate it if members will be so kind ... Blue Bird Friends, Hope you'll take part. Would like to have a picture for Bird Tracks, February's issue/ Valentine month!!!! Last year we wrote up the love stories of as many members as we could get to contribute. This year I would like to collect as many pictures as possible of members as they looked around the time they married. I'd really appreciate pictures of officers, committee members and any of their own friends in the BB Family that they can get to contribute. If you like the idea, please hurry as soon as possible to send me those pics. It will take time to work them all into graphics for the newsletter in just three weeks time.... We plan on heading for CA so I need to get started on them as soon as possible. Thanks. Neat

Remembering:  By Martha Rowe Vaughn

The end of the old year and the beginning of the new is a time for remembering the past for me. I don’t do resolutions any more because I have yet to fulfill one, but I do enjoy looking back and reliving for a few moments the wonderful places Charlie and I have been in our Bird.

Some people keep diaries of their trips, but I’m too lazy even though I’m a so-called writer. Instead, I buy Christmas ornaments from nearly every place I go. When the time comes to decorate the tree, I pull out all the ornaments and delight at thinking about the places and people and good times they represent. Each year there are more and they are rapidly replacing the old decorations that have no meaning attached to them. My tree is a hodgepodge of the elegant and the tacky. At a time when it is fashionable to have “theme trees,” a la Martha Stewart, I guess the theme of our tree is “Wherever the Road Takes Us.”

One of the most elegant ornaments is a silver reproduction of a chandelier created by Frank Lloyd Wright. We got it at “Falling Water” in Pennsylvania. It sparkles and twinkles in the lights. Oh! Falling Water! What a wonder of architecture from a most unusual man who changed the face of architecture all over the world. Wright was a self-centered little man with a brilliant mind who left an amazing legacy for all Americans. We were stunned at the beauty of Falling Water and of Taliesin in Wisconsin where we visited during the Amish Rally.

Speaking of unusual men! Alex Jordan, Sr. was dismissed as an architect and insulted by Wright. In retaliation, Jordan bought a mountain top near Wright’s Taliesin and proceeded to construct a Japanese house on it as a parody of Wright’s architectural innovations. His son Alex, Jr. took over the site after his father’s death. Today the house is a small part of a bazaar collection of, well, everything you can think of from carousel horses to ship models, from dolls to Asian ivories, from guns to musical arcade machines. Alex, Jr. opened the house to the public along with several warehouses holding his hoard, excuse me, collection, and named it “The House on the Rock.” A beautiful hand painted ornament with the “needle” on it represents this fantastic visit.

Below Wright’s shiny ornament is a red birdhouse with the words, “See Rock City.” Chattanooga! Rock City, the waterfront, the Aquarium, the history, (Continued on page 7)
Technical Tips and Tricks:  by Ralph Fullenwider

Hello everyone;

Ever been driving down the road, especially after a fuel stop, only to have your fuel gauge tell you that your tank is empty? Yep, happened to me. <grin> The following will give you some of the stats for our Coaches. It will cover the three basic units used in the various years of our Coaches and let you know a bit more as to why OHM's becomes so important on your multi-meter.

Fuel senders;

I trust one and all had a good Holiday season. This tech tip comes with the assistance of Rick Archie for some of the facts on the fuel senders.

There are 3 basic fuel send's used, they are;

- Stewart Warner: Full 29-33 ohms / Empty 244-250 ohms
- General Motors: Full 91-93 ohms / Empty 0-2 ohms
- Ford/Chrysler: Full 70-73 ohms / Empty 0-2 ohms

Most of the coaches use the GM 0-90 ohm sender and gauge. And are adjustable for tank depth of 10 to 24 inches and the original senders had brass floats.

It is the float that I want to really point out here. Over time, age takes its toll, well, yes on us, but more importantly thin brass floats, and small cracks occur. When the float fills with fuel it sinks of course and that gives us the E on the gauge. Usually, it is not the gauge or sender that has gone bad, but the float.

I just replaced mine, after a second attempt to repair the old one, with a new brass float found on ebay (a tip coming from fellow Birder, Marvin Middlebrooks.) I found brass floats for Ford, GM and others. I ordered the Ford unit and installed it as a plug and play unit. But I also noted the size and dimensions across the manufacturers were very close to being the same. Some of the new floats are plastic meaning polypropylene, and while a fishing bobber might work for a short while, it would certainly only be a temporary thing. <grin>

The photo of the in fuel tank sending unit is the typical style in our Coaches and the brass float is the normal thing to find. Note the 1/2 circle on the end of the arm of the sender, then note the detent on the brass float. The float simply snaps into place on the old sender arm already in the tank.

By replacing the float alone, it is usually not necessary to re calibrate the sender, but at that time is a good time to use a clean wooden yard stick and measure the amount of fuel in the tank and the depth of the tank it's self to be sure your fuel gauge is telling you the "truth" of the amount. I broke my tank down into 1/8ths measurements to find tune my system and by doing that I can also, at a glance, know what the next fuel stop is going to run as far as the pocket book goes. Co- Pilots sort of like that part. <smile>

My break down went like this;

The FC tank is 23 inches deep and the fuel height on a yard stick is 15.5 inches. I broke the units down to 1/8ths so:

23 = F = 265 gal
20.125 = 7/8 = 231.875 gal
17.25 = 3/4 = 198.75 gal
14.375 = 5/8 = 165.625 gal
11.5 = 1/2 = 132.5 gal

Now I can is/was how much fuel to fill and can estimate the approximately cost for the co-pilot. :) So between 5/8 and 3/4 of a tank I need approximately 83 gallons to fill and at present price of 3.059, that comes to 250.00 give or take.

Ever wonder what happens if you need new brake drums for the Coach and you are without Factory support? Well here is a link to where the drums were made, including the rear drive with the special "notched" inner rim for the speedometer.

Wanderlodge Owners Group Celebrates Birthday:

After pleas by the Bird Tracks editor, Randy Dupree gave me the following answers to our questions about his forum and his long time association with Blue Bird.

Jan.10th will be the 3rd birthday for www.wanderlodgeownersgroup.com (WOG).

This group was formed by Randy Dupree, John Finn and Rob Robinson and is paid for by www.buybyebluebird.com, one of Randys businesses.

For years now, there have been on-line forums for Wanderlodge/BMC coaches and most were built on the Yahoo formats. They were basically just a big pile of information that was not sorted or well organized which made it difficult to find info. when we needed it (kinda like my desk!). Oh, don't get me wrong, the info. was in there, but where?

So, after talking it over with John and Rob, we decided to start a forum so we could organize the info. and have separate topics such as engines and tires and we even set up spots for FC's, PT's and 450's etc.

I hired a web master and he knew nothing about motorhomes or camping, so it took us a few months to get all our ideas together and for him to understand how we wanted the site set up. We were shooting for a birthday of Jan 1, 2008.

But the testing of the new site ran over into the first week of Jan. and we opened the site to the public on the 10th of Jan. 2008.

We really had no idea what we were doing but we had some rules:

NO politics
NO religion

One good thing about WOG is how quick the news spreads. If something happens to one of the members, we know it within hours. We had a member break down on the way to a rally so he called me and I put it on WOG and within an hour there was 2 other Bird owners that stopped at the broken down coach, had him fixed and back on the road!

We have files upon files of drawings and other info. We have also located parts that we used to be able to get from Blue Bird. WOG supporters include Parliament Coach, Coachcraft, Coachworx and others.

We have rallies with no rally fees. The only charge is the campground fees that you pay to the campground. The rallies have pot luck dinners, hot dog cookouts, happy hours and everything you would expect at a rally, but no rally fees.

The last rally we held in Oct. had 116 coaches with 4 days of fun and friendship. Some came a week early and NOBODY was ready to leave. At that rally we had 2 BBQ cook-off champions that cooked for us and both are bird owners and they cooked for free. The meat was supplied by Coachcraft by McDonald. We ate like kings!! This rally has been on-going for about 10 years. It was started by a group of us that went across the street from the Rally in the Valley and spent another 2-3 days before we went on our way. After the RITV died, we continued to hold our Rally Across the Street, RATs for short.

And how it has grown. We have out grown 2 campgrounds already and we are now calling Pine mountain RV park home for RATs. Next year we expect 150 coaches and we have room for 200. RATs was sponsored by Bleakley, Parliament Coach, Coachcraft by McDonald and Coachworx.

Rally in the Valley and spent another 2 days before we went on our way.

We also have a Tri-fecta rally that starts in NH, goes to NY city and then to Hershey, Pa. 3 weekends in a row and it's awesome. Note: If you don't like good food, good times and lots of laughs, stay away!

All in all, the WOG is all about fixing birds, good times, good food and good friends. We are closer than family!

Oh, did I mention that WOG is free? No membership dues or anything, it's all paid for by my company, www.buybyebluebird.com.

Randy Dupree has been a Blue Bird owner for many years. He was the owner of Dupree Products and was at many rallies selling his wares.

His main focus these days is www.wanderlodgeownersgroup.com and www.buybyebluebird.com.

He can be reached at 352 538 3435.
Although this is the January issue, many of you will get it in time to make some holiday treats for family and friends, and certainly a couple of these recipes are worthy of saving for your next cooking spree.

Bobbie Jensen sent this recipe that some of you have been waiting for since the Rally in Louisiana. It’s from Linda Fontenot in Vermilionville, LA.

**BREAD PUDDING**

3 (1#) loaves of stale bread  12 oz. heavy cream  8 eggs
¼ cup butter  1 (12 oz.) can evaporated milk  2 ½ cups sugar
2 Tablespns. Vanilla  ½ tsp. Nutmeg  2 ½ tsp. cinnamon
1 cup butter, cut into pieces

Break bread into pieces and set aside in a large bowl. Combine all ingredients except the cup of butter pieces. Mix well. “We put gloves on and smash all ingredients together until well mixed and mushy.” Pour into a 13 x 9 buttered pan. (“We also mix a little sugar and cinnamon and sprinkle on top before topping with butter.”) Top bread mixture with cut up butter and bake at 325° for 60 minutes or until mixture has risen 1 inch.

**SAUCE**

1 cup sugar  1 cup evaporated milk  2 Tblspns. Butter  1 tsp. Rum extract

Mix all ingredients in a sauce pan and cook until thick—“consistency of a sauce that is almost ready to be used as praline candy”. Pour over warm Bread Pudding; Enjoy!

Neat Scott sent this recipe for pancakes or waffles, along with a great story. It seems a friend of theirs was an Engineer on a train, which stopped at a certain country restaurant of their run. They had all loved the pan-cakes there, and had asked for the recipe. However, the recipe was a prized ‘secret recipe’ never given out. On the Engineer’s last run before his retirement, he was handed an envelope along with his change. Inside, along with good wishes for his retirement, he found the recipe, so that he could continue to enjoy the pancakes even though he couldn’t stop in regularly anymore. He shared the recipe with Neat and she is sharing it with our Family of Friends.

**PANCAKES OR WAFFLES**

2 cups flour  2 eggs  2 tsp baking powder
2 tsp. baking soda dash of salt
2 T. sugar  2 cups buttermilk

Stir by hand until smooth. Bake as usual.

(Do you notice everything is TWO--will make it easier to remember?)

NEAT serves these with her EASY CINNAMON BUTTER:

Blend with electric mixer—½ pound butter or margarine, 3 T cinnamon, and ½ pound confectioners’ sugar. Store in an airtight container in the refrigerator.

At our Lone Star Birds Holiday Rally, we had lots of good food and I’ll be adding some of these recipes later. Here’s a quick snack that was a real hit at the “Happy Hour”--aren’t they all when you’re with friends like these?!

Wynelle Kleber made these SEASONED CRACKERS that literally had people chasing crumbs!

1 ½ cups canola oil  1 package dry original ranch dressing mix 2 Tblspn dried red pepper flakes 4 sleeves of saltines

Mix ingredients and pour over crackers. Roll around in a covered bowl or gallon jug until all are coated. Lay out on wax paper to dry. Store in an airtight container.

Wynelle served these beside her ‘WE BE JAMMIN’ DIP’.

1 cup chopped pecans ½ cup mayo 1 C shredded cheddar cheese ½ C chopped green onions

Combine and pack in a shallow bowl. Cover mixture with Hot Pepper Peach Preserves or Jalapeno Jelly.

(NOTE: actually very good dip even without the topping--K.)

This CHRISTMAS EGG PUFF was a (Continued on page 8)
fabulous food. We had a ball in Chattanooga, just the two of us.

Corning, New York is represented by a stunning glass and wire ornament. We visited the Corning Glass factory and watched as strong young men hefted molten globs of glass on the ends of pipes and blew wondrous vases of fantastic shapes. I had no idea that glass blowing required such physical strength. We were totally entranced as they heated the glass, blew it, cut it, added other colors, and pressed it into shape.

One of my favorites is a reverse painted glass ball from the artistic hands of the Athabascans in Canada. The painting is a representation of the Orca in lovely dark red, white and black. Art to the Athabascans was extremely important and they were/are very talented. At the museum dedicated to the Athabascan culture we learned that the reason they were so dedicated to art was because they did not have to work so hard at living. They had time to develop the arts unlike some people who lived in harsher regions where life was tougher. We passed through the Athabascan area on our way to Alaska.

Revenge of the Mouse Gods: (Continued)

By Martha Rowe Vaughn

One of the newest decorations is a gaudily painted and green, purple, and gold clad jester from New Orleans that we won at the New Orleans rally. The French Quarter is a marvel of a most interesting culture from Voodoo to naughtiness. We learned so much at both of the Louisiana rallies last fall. What a fun-loving people the Cajuns are.

Next to the gaudy jester is a whooping crane made of straw. It is in flight with neck extended and wings outspread. While at the Amish Rally, we visited the International Crane Foundation in Baraboo, Wisconsin. It is the only place where you can see all 15 species of cranes from all over the world. They are dedicated to increasing the numbers of cranes, especially the Whooping Crane. We saw the Wattled Cranes dance and the Whoopers fish for food. The Whooping Crane is the rarest of birds. Wild ones migrate to Texas or Florida during the winter. Those at the ICF are used to increase the numbers of Whoopers and are a captive flock. The Foundation introduces the young to the wild and teaches them to migrate by the use of ultra-light planes.

Birds seem to be in great numbers on the tree. Some of the prettiest are the cloisonné hummingbirds I bought on a trip to Massée Lane Gardens in Fort Valley, Georgia. This is the home of the American Camellia Society. We visited at the peak of camellia season and were delighted by the varying colors and shapes of the flowers. We also saw a young eagle.

Shimmering in the lights is a delicate copper birch leaf from Prince Edward Island where we attended a rally at the Dunville’s home. We were treated to theater, lobster, carnival fun, and great ice cream. PEI is spectacularly beautiful. It was, at the time, the longest trip we had taken in the Gigarex; our first time to cross a border, too.

Not only do I get to relive the places where we have been while decorating the tree, I also remember them when undecorating the tree, traditionally on New Year’s Day. My favorite ornament is a silver trailer similar to an Airstream. I purchased it in Yellowstone National Park and gave it to Charlie for Christmas. We loved Yellowstone with the waterfalls, animals, and the thermals—a unique adventure. What is written on the side of the silver trailer sums it up for us, “Home is where you hook up.”

great hit at the breakfast, and Jacquie Small had to go make several copies of this because of demand. That was, of course, after the pan had been scraped clean!

Prep time--10 minutes; cook time--30 minutes.

¼ C butter or margarine
12 eggs

½ cup all-purpose flour
1 tsp. baking powder
2 C cottage cheese
4 C shredded Monterey Jack cheese

1. Preheat the oven to 350. Place the butter in a 9 x 13 baking dish and put the dish in the oven while it preheats.

2. In the container of a blender, combine the eggs, flour and baking powder. Cover and blend until smooth, about 1 minute. Pour into a large bowl and fold in to the cottage cheese and Monterey Jack cheese. Pour over the melted butter in the dish.

3. Bake in the preheated oven until firm in the center, about 30 minutes. A knife inserted into the center should come out clean.

Next time, I have some special things for you. Ralph Fullenwider and his better half, Charlotte, shared some campfire recipes the last time we went fishing at the trout stream. ‘You’re gonna’ love these!

In the meantime, send your favorites so that we can all share. My January (after the holidays) project is to collect some of the favorite recipes into their own small cookbook to carry in the coach, so that I don’t have loose papers or large books in the drawers. I can certainly start by printing the past year’s columns with all your wonderful contributions. Thanks to all of you who have sent your favorites this past year.

Please send your old favorite recipes, or something new you’ve made or eaten lately! We all like something new now and then!

Back to Georgia!: by Paul E. Ward

FAMILY OF FRIENDS - VINTAGE BIRDS - FMCA
March 14-17, 2011 -- CARAVAN -- MINI-RALLY
Georgia National Fairgrounds & Agricenter, Perry, Ga.

Contact Paul E. Ward, Caravan Leader, if you would like to join a Vintage Birds and Family of Friends Blue Bird Caravan-mini rally parking together at the FMCA 85th International Convention (Southern Home-coming), at the Georgia National Fairgrounds & Agricenter, Perry, Ga., March 14-17, 2011.

FMCA indicates there will be over 100 seminars and many vendors in attendance. Ward has made FMCA arrangements on a "first come, first served" basis for a caravan group of 30 Blue Bird coaches. Get details regarding the FMCA 85th International Convention in the December 2010 FMCA monthly magazine, page # 64-65. Blue Bird members of the caravan group should make their own 85th International Convention registration prior to February 6, 2011 to secure the Early Bird registration fee of $330 in the General/Electric (30 amp), limited space area. FMCA will park the Blue Bird Caravan on Sunday, March 13, 2011 at 11:00 AM in the General/Electric area. To be included in this FMCA Blue Bird Caravan-Mini Rally please ASAP contact Paul E. Ward at pward8@comcast.net or 912-925-4805.
Several Birders here in Michigan have shown interest in organizing an informal summer Michigan area Blue Bird weekend. Since a "formal" rally would be a bit premature at this point, there are several of our members that would like to have a "lets meet" and enter into the FMCA GLASS Rally May 26th through Memorial Day.

GREAT LAKES BLUE BIRD GET TOGETHER

The Midwest area GLASS Rally (Great Lakes Area Spring Spree) is an FMCA area rally that is a full scale 4 day Rally with Food, Entertainment, seminars, vendors the works. The days are May 26 to 30. To find out the skinny go to www.glassrally.org. The Michigan Knights of the Highway, an FMCA Chapter, has been hosting this rally for many years and have it down to a science. They play host to around 700 coaches. You must sign up early to get electricity. This is a nice time of the year in beautiful southwest Michigan. Ron Rueckwald rruekwald@aol.com and Al Scudder al_scudder@msn.com have offered to organize the Blue Birds that would like to attend this rally. There are over 100 BB's in the Great Lakes area that could attend. If you are available and are interested, please email Ron and/or Al so we can plan where to meet, since we must arrive at the Rally gate at the same time in order to park together. We had a great time last year and believe we can number 20 or 30 this year. No charge above the GLASS fee, meet new Blue Bird friends, have fun at GLASS, and enjoy a few Blue Bird cocktail parties along the way.

Buying and Selling a Blue Bird Motorhome: by Rob, Sue & Joey Robinson

If any of you have ever tried to buy or sell a Wanderlodge or Blue Bird Motor Coach, you know what a chore it can be.

Many small dealers have no idea of what they are, much less how everything works. Also, if you're trying to sell one yourself, you get the pleasure of answering the phone at all hours and finding yourself trying to explain why Blue Birds are better than, well, almost anything.

Blue Bird Motorhomes are complex. To explain the complexities of their workings including jacks, air dump waste tanks, TV's, air brakes, air ride and all of the other gizmos is a daunting task!

And that's where Randy Dupree and his Blue Bird Motorhome Brokering service www.buybyebluebird.com comes in.

Randy has been a Bird owner for 20 years. His company was Dupree Products for 15 of those years and it produced literally thousands of product parts for Bluebirds and other RV applications. Dupree Products is probably most famous for it's air operated dump valves which are still made today and used around the world.

After selling Dupree Products about 6 years ago, Randy bought and sold a few Birds for himself and his friends. Requests from other buyers and sellers made it obvious that his first hand knowledge of many of the units was what the market was looking for. He started a business brokering Bluebirds and hasn't looked back since. Using his sense of humor he called the new company Buy Bye Blue Bird. www.buybyebluebird.com is his website.

So, for 3 of the worst years in motorhome history, Randy has been successfully selling Birds. Randy is the Bluebird Matchmaker. He matches sellers with buyers, trying to keep both the seller and the buyer happy and it has been working fine!

Frequently, buyers and sellers call him for advice about coaches not listed on his site. Make no mistake, Randy likes to make the sale but that is not what it is all about. If he can provide advice or help a prospective buyer/seller he will do it regardless of the circumstances.

Randy also has a couple of Birds he's junking out. His personal coach burned last year (a 95WB) and he bought it back. He also has a 94WB that had an engine fire. He is parting that coach as well.

Just a few weeks ago he began dismantling an 82 FC. He has lots of parts from all 3 coaches for sale.

It seems like Birds and Bird parts just sort of "find" him. Lots of you know him from the years of selling at the FMCA rallies. Randy also owns the Wanderlodge Owners Group. www.wanderlodgeownersgroup.com. This is a forum that has over 2000 members where they talk about Bluebirds, rallies, parts for Birds and many other related topics. It's a free forum, come check it out!

So, if you want help buying a Bird or selling a Bird, Randy is your man. His contact # is 352 538 3435.

The Colorado Railroad Museum offers train rides and a look at the history of railroad in the West.

Don’t miss Lookout Mountain and Buffalo Bill’s Grave and Museum. Dinosaur ridge and a drive to the beautiful Colorado Rockies could find you riding the steam train at Georgetown Loop and touring a gold mine.

Also, the historic towns of Central City and Blackhawk can provide a look at historic buildings or try your luck at the various casinos in the area.

Dinner on your own. Check out the historic restaurants in Golden or dine at “The Fort” and experience the culinary delights of our rich Western cultural and culinary past, where food trends of the 1800’s are reintroduced. Be inspired by historic recipes and sample items on the menu such as the buffalo empanadas … delicious like the first kiss!

Sunday, June 12. Enjoy the many art galleries in Golden or Denver, tour Red Rocks and meet for an afternoon performance at the Heritage Square Music Hall. Dinner and show at Heritage Square Music Hall. Meet at noon with the show at 2:00. Heritage Square is a delightful replica of a western village with Victorian architecture. Go early and enjoy the many shops or take a daring ride on an Alpine Slide.

The rest of the afternoon and evening is free to enjoy the many attractions in the area.

Drive to the world’s highest paved highway and view the state from world famous Mount Evans. All 14 miles of the road from the entrance station to the Mount Evans summit parking area (14,130) are paved. From there, you can hike the last 130 feet (about 1/4 mile walk) to the top at 14,264 feet. After you have made this climb, you can tell all your friends: "I climbed a 14,000 foot mountain in Colorado on my vacation!"

Rally fee: $180.00 per coach with two people. Extra person: $90.00.

New Year’s Eve: Written by Ann Harter for especially for FoF (Submitted by Neat)

Do you recall New Year's Eve, that long ago night,
When the little black dress had to fit just the right 'tight'?
And the hair-do upswept and sprayed into place
High, high heels for dancing, and glitter and lace?

An evening romantic was full on our mind
With no thought that the men's was not the same kind.
Before women were from Venus and men
New Year's traditions carry out through the year
So she and her mate sought out guaranteed cheer.
Each New Year's at mid-night they'd sit down to sup
On steak, baked potato, champagne and all such.

That didn't sound "fun", I mean who wanted to cook
At mid-night, that just was not in my book.
But sooner or later, mid-age came by surprise
We were walking the floor awaiting teen kids to arrive.

By the time we had made it though those hectic years
We were happy at home just sipping some beers.
We found the guaranty wish the New Year could bring
Was to be snuggled in slumber when the bells start to ring.

A good night of sleep with sweet dreams from there on
Who could ask the fates more, we still remembered the songs.
But now as our dotage so quickly draws nigh
We gather old friends and sing Auld Lang Syne.

We sit up until mid-night, playing cards or charades,
Laughing at antics of our New Year's Eves of "the day."
Now we hope to awaken for the Rose Bowl Parade
And try to not nap through the big football game.

Sunshine & Mists: by Brenda Rodgers

Tom and Sandi Bay received a most precious Christmas gift! Their little grandson, Graham Russell Bay, was born on December 9, 2010, in Tennessee. Of course Sandi and Tom were there for the arrival and Sandi reports that he's just the greatest! Proud parents are Rusty and Kel-lee.

We were sad to learn that Mrs. Dorothy Marie Lunsford passed away on December 15, 2010, in Cold Spring, Kentucky at the age of 88. She was preceded in death by her husband, Robert Jesse (Bob) Lunsford in 2007. Bob was a former President of the Blue Bird Chapter, and many of you will remember their attendance at the rallies and their visits to the Bird's Nest. We extend deepest sympathy to their two daughters and two sons. Memorial services were held on December 21 at St. Mary's Catholic Church in Alexandria.

I send very best wishes to you and all those you love for a great 2011 filled with much happiness, good health, and safe travels. I look forward to seeing many of you in Perry, Georgia, for the 85th FMCA International Convention March 14-17, 2011, at the Georgia National Fairgrounds. Happy New Year!

Please let us know of others that we need to remember in our thoughts and prayers.

Haven't we all traveled a few extra miles to taste some of the Peach Ice Cream or Cobbler at Lanes in Fort Valley! Some say the Hot Dogs at Nu-Way outside the security gates of the old factory are good. They are red. We'll take their word for it. Perhaps you've tried them.

Rozanne DeShazer. FOF/Vintage etc.

**Idaho**

Hackney's Restauratn with numerous locations in north and northwest Chicago suburbs. A local favorite. Specialities include an onion loaf, burgers marinated in secret marinade reputedly bourbon based for a day or more. Served on dark rye bread.

Greg says that he and Judy also like K&W Cafeteria chain located throughout the Southeast. Not gourmet but great and easy eating. Fantastic prices. Two for around $15. Not bad. Recommended by Greg Peterson, FOF Treasurer.

**Indiana**

**Iowa**

Udders Steak House 1265 Hayes Dr. The best steaks in the state. Pick out and cook your own if you wish. Knoxville, IA. Recommended by, Jerry Roose, Rocky Mt. FMCA Chapter & Jon Scott FOF/RMC
